WM. LUCHT

Dr. Chandler, dentist, at Maurer Hotel December 10, 11 and 12. Three days for you to get that dental work done.

We are informed that the telephone exchange will change hands December 1st, when the new management will take possession.

Miss Gjølhaug arrived last week from Big Woods, Minnesota, and will make an extended visit with her sister Mrs. Arneson.

I will be in Binford on my next visit, one day only, December 19th.—Dr. J. E. Featherston.

The First State Bank building is now completed, and the officers have moved into the same, where they are now located very comfortably in a neat and attractive home.

The fixtures for the First National Bank have arrived and will be installed as soon as possible. They are of good quality, artistic and add materially to the interior beauty of the bank.

Dr. Featherston's next visit to Binford will be on Wednesday, December 19th.

J. P. Vangen returned Sunday from his claim near Steele. He drove over in a buggy before the snow came and says there is very little snow out that way, but most of the way home he found very good wheeling—nit.

"The railroads are operated for the people," we have so often been told. Well then, dear Lord, who are the people: tell us we pray? But, what would we do if it were not for the railroads? Well, we might do business if nothing more.

Good advice is or should be readily heeded, especially when one's welfare is directly concerned. What is of more consequence to real enjoyment than good, healthy teeth? Are your teeth sound and healthy? If not you had better call on Dr. Chandler, December 10-11-12.

Mrs. A. A. Goplen and daughters departed Friday for Zumbrota, Minn. where they will make their future home. Mr. Goplen will follow them as soon as he can get a car to ship his household effects and other belongings. Mr. Goplen has been a successful farmer south of town, and his

family is very well liked, and their departure will be regretted by many.

Get genuine Booth oysters at the HUB RESTAURANT, and you get the best. 25-1f

McHenry has a First National Bank situated on Chadwick Avenue. Now, if we owned and controlled forty or fifty such institutions, we don't believe we would like to have that name Chadwick very conspicuous around any of them.

Geo. Lockett & Co. now have on a nice line of Edison Phonographs and Gold Moulded records, in addition to a complete line of musical instruments including pianos, violins, mandolins, guitars, etc., etc. Give them your business and get a good musical instrument to cheer up your home during these long evenings and the short ones to come.

CRACK THE WHIP

Last Sunday as Carlisle Williams, second son of Mr. and Mrs. C. B. Williams, was leading a horse to the barn, the animal became fractious and began to jump and whirl round and round giving the boy a lively time at the end of the rope. But the horse naturally had the advantage and the boy was thrown from the rope and fell headlong against a wagon wheel, his eye coming in contact with the hub and tearing the lid so badly that nine stitches were required to draw it to place again. At the present time he is said to be getting along nicely.

In Time of Peace

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by Geo Lockett & Co.

Black Art in Another Form.

A German gentleman and his young son, Fritz, were on an express train bound for the seashore.

While Fritz was snoozing his father, who occupied the window seat, snatched his cap and seemingly threw it out of the open window.

"Aha," the joking father said, "your cap is on de outside. Never mind, Fritz. I'll vistle und it will come on de inside again mit quickness."

The father whistled and, at the same moment, deftly piced the cap on his attentive son's head. Fritz was speechless. He pulled off his head-covering and gazed at it in wonder and at his pater-familias in deep admiration for several minutes.

As the train neared a bridge the little chap was inspired. Leaning far out of the open window he dropped the cap, and turning to his dad confidently said: "Vistle, fadder."
