

S A PROPOSED LEAGUE

To Comprise the Towns of Dazey, Hannaford, Cooperstown and Binford.

e A proposition of a base ball league
- to comprise the teams of Dazey,
- Hannaford, Cooperstown, McHen-
n ry and Binford is being talked of
y considerably.

s The proposition is to limit the
- number of salaried players and al-
s so the amount to be expended for
e such players. A schedule would
f be perfected with about two games
- a week—each team playing one
e game at home and one away. Such
o an arrangement would seem to be
l a source of general satisfaction in-
s asmuch as it would be much cheap-
er and not so many salaried men,
which of course is bound to detract
to a certain extent, the interest
that is taken in all local talent
teams. Games could be so ar-
ranged so as not to interfere with
business interests.

The towns represented would not
have to confine itself strictly to the
league games but could play out-
side teams on open dates. Con-
siderable interest has been aroused
in Binford over the proposition
and it is hoped that the other towns
will take up the agitation.
