

THE RURAL ROUTES

Very Probable That Both Will Be
Established the Coming
Summer.

Two rural routes for Binford the coming summer look like a sure go. The routes will run southeast and southwest from Binford. It will be a matter of much convenience to the farmers living along the routes.

In regards to the routes Postmaster Gunderson has received the following communication from Congressman Marshall:

"Referring further to the matter of establishment of proposed rural delivery service from your office will say the requirements affecting routes 1 and 2 have been met and the service will probably be established early in the coming summer.

Assuring you it has been a pleasure to have been a service to the good citizens of that vicinity in this matter, I am,

Yours very truly,

Thomas F. Marshall.
