

We are informed that several glandered horses were killed in this vicinity this morning. Paul Rorvig is said to have lost one, Matt Hovel three and Peter Burns three. Dr. Martin of Valley City was here this week and pronounced the disease glanders and ordered the animals killed, which as we understand the new law is to be done under the supervision of a justice of the peace and by a board of appraisers. Justice Pritz had the killing of these horses in charge.
