

Courier: E. M. Jackson, who has been appointed auditor for the Trimble-Winton Lumber Co. has removed from Binford to Valley City, which is a better place for him on account of his work. Mr. Jackson has been the leading spirit in the building up of Binford and has lent his energy and efforts in making it what it is today—a live, growing little city. He was a member of the school board and largely through his efforts Binford now has a fine school building. The Jackson family will be missed at Binford.
