

Mr. Joseph Kuntz of Jessie sustained a fracture to his arm last Friday by having the misfortune of falling from a wagon and the wagon passing over the arm, which was crushed. He is about sixty years of age and the bones do not seem inclined to re-unite easily because of his advanced age and it is not known at this time whether the unfortunate man will recover the use of his arm or not. We hope it will improve and that he will not need to have the member amputated.
