

BINFORD BANKS

RANK SECOND

Local Banks are Second in Deposits in Towns on Cooperstown Branch.

That Binford is rapidly forging ahead, and taking its place as the most enterprising and hustling town on the branch is daily becoming more evident. We have on several occasions called attention to different ways in which Binford takes first place, and now to add to our laurels we can proudly state that Binford's two banks have larger deposits than the banks of any other village on the Cooperstown branch. The bank deposits of a town are as a barometer of local conditions, and that Binford, the fourth largest village according to population, leads all others on the branch, certainly speaks well for our little village and the surrounding country, and for our two strong financial institutions. The total deposits of Binford's two banks at the close of business Sept. 4, amounted to \$211,608.86.
