

# MARKET DAY FOR BINFORD

Commercial Club Decides on the  
13th of June to Hold its  
First Market Day.

## SEEDING WILL BE FINISHED

Merchants Will Offer Substantial Prizes and  
Bargains—Auction Sale and Many Other  
Splendid Features Will be Added.

At the meeting of the Commercial club last evening the members decided to hold a market day in Binford this summer. The date was set for Saturday, June 13, and will be held then unless it is deemed necessary to change it.

A committee of Herman Osen, Stephen Rorvig and C. E. Peterson were appointed to make the preliminary arrangements and report at the next meeting, when the other committees will be appointed and assigned their duties to carry it through to a successful completion.

Many features were discussed and there is no question but what the program will be a very attractive one. The merchants will have some exceptional bargains for the day besides a valuable prize, as will all the other business houses. An auction sale will be another attraction, and it may be possible that a good speaker will be secured, and also a baseball game and some street attractions. These will be decided on later.

Now, then, so long as the Commercial club is back of this venture, all should become enthusiastic boosters whether you are a member of the club or not, or, whether you favor it or not. The cooperation of all is essential and unless we make a success of our first market day the others, if we have any, are liable to prove failures.

Get behind and push, get ahead and pull—but boost for the market day and for a bigger, brighter and busier Binford.
