

covering rapidly.

F. C. Boeckman has practically completed the improvements on the interior of the opera house annex, which will be used for a bowling alley and pool room. All the fixtures are new and will be installed in a short time, probably in a week or two, and when that work is done Binford will have, without question, as fine a pool and billiard parlor and bowling alleys as there are in the state, and this is no idle talk. The alleys are what is called a continuous alley. That is, instead of coming in three sections like the ordinary alley, the material is shipped in and built right on the floor, doing away with the bumps where the joints come together as is the case with the others. A loop the loop return chute for the balls is another new thing which Mr. Boeckman will install. Fred has gone about this with a determination to give his patrons the best of everything in his line, and The Times hopes this fact will be appreciated by the public.
