

Best week.

Bertha Johnson, daughter of Mr. and Mrs. Chas. O. Johnson, fractured her leg last week by a barn door falling on it. At the time, it was not thought that any bones were broken, and consequently no doctor was called, but on Saturday Dr. Truscott with Dr. Brimi, went out and found the true condition of the injured member. The bone had started to grow together and it was necessary to break it again to set it right.
