The band meeting on Wednesday evening was not as well attended as it should have been, but we hope that at the next there will be a full attendance. We have the regular expenses going on whether we meet or not, and every possible effort should be made to take the best advantage of this. Let not some small trival circumstance detain you from meeting up, as the band rehearsal should come first, except in cases of sickness or very pressing business instances. Non attendance at the rehearsal show lack of interest in the work.
