

Big Silo Offer.

Thompson Yards, Inc., have just announced that they have set aside \$80,000.00 to finance 200 Northwest farmers who want silos on their farms.

From what we have been able to learn it isn't hard for them to dispose of this number of silos on the attractive terms they are making. The problem for them is to get these silos into the hands of the right men. **Men who will put silage up right, feed it right and let it help them make more money.**

For this reason they are limiting the number of silos to 200, as that is all they can put up in a thorough, painstaking manner, and they will not put them up in any other way.

If you have live stock, if you consider yourself a good farmer, you need a silo. Every day you delay you are losing money through needless feeding and labor costs. Thompson Yards, Inc., is making the most liberal offer ever made by any concern in order to help boost our territory as a corn, cattle and diversified farming country. They furnish the money to pay for the silo—put it up—paint it—guarantee it—and then make the terms so easy that the silo actually saves you money instead of costing you.
