

# **BINFORD WILL GET INSTITUTE**

---

**Farmers' Institute Will Be Held Here  
on Monday and Tuesday,  
Feb. 21 and 22.**

---

The annual Farmers' Institute will be held in the opera house in Binford, on Feb. 21 and 22. There will be a change in the management of the institute this year as it will be under the management of the regular state institute force. This does not mean that it will not be as good as on previous years but that it will be under the immediate management of the State Institute force, which is under the management of Mr. Frank Sanford, an experienced stock raiser.

The institute will begin on Monday, February 21st, in the afternoon and continue until Tuesday afternoon, February 22nd. The institute corps will be composed of at least two men and one woman, all experienced institute and platform people. The men are all qualified to talk on livestock, farm management, and general farming, and the woman is qualified to talk on domestic science and home making. All the members of the corps will adapt their speeches to local conditions and will invite active questioning on the part of the audience.

The institute force will arrive in Binford Monday and hold one session in the afternoon of that day and one in the evening. On Tuesday there will be two sessions, one in the forenoon and one in the afternoon.

It is hoped that the farmers will remember this is a Farmer's Institute and they are especially urged to be present and to take an active part in the work of the institute. If they will do so they will aid very much in building up an institute that will be of lasting benefit to themselves and the community. Let every one who can come out and help to make the institute a success.
