

with hearty response.

Never before in the history of Binford, has as large a crowd assembled in the opera house, as the one which witnessed the performance of "The Merry Cobbler," the home talent play, which was presented last Friday evening. Every inch of available space was utilized, from the front to the back, and as a last resort the inner doors were thrown open to accommodate the late comers, who were satisfied to get standing room. It was a veritable jam. The total receipts for the show amounted to \$149.50, and with the dance money this amount was raised to \$163.50. The baseball management is grateful for this splendid support and feels under heavy obligations to those who have taken part in the plays and have done so much to make them successes. We feel that we owe it to the cast of characters to give each special mention, but lack of time forbids this.
