

VILLAGE DADS ARE PEEVED

**Are Determined to Put a Stop to
Speeding Within the Village
Limits.**

The total disregard which some people have for the speed law within the village limits, has reached a stage where it seems necessary to more than warn the automobile drivers of their dangerous practice, which The Times has done many times this spring.

The village board at their regular meeting on Monday, recognized that more vigorous means must be used to bring the speeders to a realization that the streets of the village are not the place for breaking any Barney Oldfield records, and passed a resolution, a notice of which is published elsewhere in The Times.

The village board means what it says, and will demand of automobile drivers to observe the law to the letter.

Take a second look at the sign posts when entering town and remember they were put there for a purpose.
