

mud hole.

Ed. Clark, the irrepressible seed salesman was in town the fore part of the week. Ed. has severed his connections with the Mayfield Nursery Co. for whom he has been employed for the past 14 years, and is now with the Standard Nursery Co. He is a tree salesman from the ground up, and it might be said that a great deal of credit for the beautiful trees in Binford is due to his salesmanship. He has made good with his costumers here and his visits to Binford are rare when he departs with no orders.
