

On Friday of last week, Blanche Greenland, daughter of Mr. and Mrs. Oscar Greenland, was taken suddenly ill. In the absence of the local physician, Dr. Westley of Coopers-town was called, who pronounced it a case of appendicitis, and immediate preparations were made for her removal to the hospital at Fargo that evening. Otto Pritz took the patient and her parents to Hannaford where they took the train. The operation was successfully performed Saturday forenoon, and Miss Blanche is getting along nicely.
