## Which Shall It Be.

The citizens of every town have it within their power to make or mar their own municipal name. It will be good or bad, just as they choose nake it.

We of this town are no exception to the rule and the citizen who loves wn home will always bear mind.

There good points many favor of our community, and w the stranger comes to our midst whe n should not fail to impress these facts n his mind,

We should take him in hand hibit the community as you would a blooded horse, let him understand that he is among a fair minded, energetic and genero is hearted pe nd when he goes to other climes he ill speak as he has been spoken to.
This is the way reputations are will s

But there is another side, and it s there that mischief is to often

done. The stranger enters our door we immediately begin to complain of the community and of the people. complain s as Nothing just suits us Nothing i Everything is it s ould be.

d the town is on the way to th WS. And then again the stranger speaks

he hears and sees.
