

EYESORE WILL BE UTILIZED

Old West Hotel Building Will Be Made Into An Auto Garage.

O. Herigstad, proprietor of the Binford Auto Garage, has completed negotiations for the purchase of the old West hotel building, which will result in removing the only black eye the village has had to contend with for many years.

As soon as possible Mr. Herigstad will commence operations to convert it into a garage. He will remove the partitions on the ground floor, brace up the ceiling, put in a cement floor, make an entrance on the side and utilize a space in front for office purposes.

This community can support a first class garage and Mr. Herigstad proposes to add to his equipment so that he will be better prepared to handle his work. He will have a very desirable location.

Thus, the eyesore of Binford will be removed. Located as it is, on one of the principal corners on Main street, unoccupied, except for a few families who are forced to reside there for a short period, due to a scarcity of houses, it looms up as a disgrace to the village. The people of Binford will rejoice over this move.
