

MOTHERS' DAY TO BE OBSERVED

**North Dakota in Line in Paying
Tribute to Motherhood,
Sunday, May 13.**

In a proclamation just issued, Gov. Lynn J. Frazier has designated Sunday, May 13, as Mothers' day,

The proclamation is as follows:

"At this season when all nature is sending forth its best and brightest gifts to mankind, it is especially appropriate that we set aside a day dedicated to honoring the mothers of our land. For that purpose it has been enacted that we observe the second Sunday in May. Obedient to the spirit of this act, I hereby proclaim Sunday, May 13, as Mothers' Day.

"On that day let the mothers be accorded special honor and reverence in our churches, in our homes and in our hearts, and I trust that all may manifest appreciation of their parents by some act of kindness or commemoration, a visit, a letter a white carnation, and let it be borne in mind that Mothers' Day is equally a Fathers' day.

"Tho separated by time or distance the observance of this day can not but bring to mind home scenes and loved ones, and we trust may strengthen and perpetuate the ties of endearment between parents and children. And let us be mindful of the supreme sacrifices to be made by each home in carrying on the war that is even now at our doors. This of all times is an hour when the mothers' prayers are needed that justice may triumph and the cause of right prevail.

"Done at Bismarck this 25th day of April, 1917.

"LYNN J FRAZIER,
"Governor."
