

McHenry Tribune: A. W. Peterson and Albin Hanson, McHenry's tonsorial artists, have combined forces and on Monday consolidated their two shops. They will move to their new quarters in the old Craft building where they will be better situated to take care of the wants of their patrons, and expect to make the change the first of the coming week. In the consolidation we have assurance that McHenry will have the best equipped barber shop to be found in this section of the state, with competent and accomodating men in charge ready at all times to take care of anything you may wish in their line.
