
At just 4:23 p. m., on Friday last, the President attached his signature to the peace protocol at Washington, which settles the war question with United States and Spain. It didn't take long—only three months and twenty two days, from April 21 to Aug. 12—114 days in all. The cost has been about \$150,000,000 with less than 500 killed and wounded including the 200 killed on the Maine. Spain's loss is everything she had—the Queen included.
