

Dr. M. C. Johnston, formerly of Aberdeen, S. D., arrived last Thursday and has decided to permanently locate in this city. The doctor comes to our people with highest of recommendations, being a graduate from the Rush Medical College of Chicago and having been in active practice in Minneapolis some five years, during which time he was one of the instructors in the medical department of the Hamline University, of Minnesota, previous to his moving to Aberdeen. The doctor has taken office rooms on the second floor of the Hope House, rooms 39 and 40, where he can be found at all times. The doctor's wife is expected in a few weeks and they will immediately go to housekeeping. We understand that Mrs. Johnston is a musician of very high ability, which fact the Hope people will be pleased to learn, having studied in Europe, as well as America. The good people of Hope welcome them to our midst.
