
AN ACCIDENT.

Miss Matelda Tollefson living northwest of town, in Melrose township, had the misfortune to a very painful accident last Monday. It was a very peculiar hap-
penstance. She was making coffee in a tin pail with the cover closed down tight and when she went to remove the cover the steam and coffee blew into her face causing a terrible scald. It was feared for awhile she would lose her eye sight but at last report she was getting along nicely. Her face was badly scalded. She was immediately brought to town and Dr. Johnson attended the patient.
