

SCHOOL NOTES

It is deeply regretted that the plague of scarlet fever has closed our public schools but as soon as the epidemic subsides, school will be resumed. When the grades are again opened patrons are urged to send their children as regularly as possible as attendance is absolutely essential for good results and teachers and superintendent will make every possible effort to retrieve the time lost and thereby enable the children to make their grades.

A large number of pupils received certificates of attendance for the last school month. Those to whom a certain number of certificates is issued, will receive a diploma.

Myrtle Barrett entered the eighth grade Tuesday to prepare for the final examination in March.

The books for supplementary reading came last week and with such equipment more efficient work is anticipated.

Supt. T. A. Hasselquist visited the Hope District schools last Thursday.

A High School record is being made in which the quality of work of each candidate for graduation are registered. Twenty four credits are necessary for graduation which will entitle the student to admission to the University without examination.

Frank Moote, Vincent Officer, Chas. VanDusen, Robert Stewart and Lottie Ingison received their preliminary certificates of admission to the High School Department and it is gratifying to note that there is a number that will obtain certificates in March.

The Freshman English Class has finished a critical study of "The Vision of Sir Launfal" and has taken up the character and works of Washington Irving. This class has made rapid progress during the year.

(continued from last week)
