Certificates of promotion have been introduced into our public schools, a record of which will be made by teachers and Supt. These certificates must be signed by the teacher in charge of the department and countersigned by the Superintendent. These certificates must be presented by students at the opening of the September term in order that they may be admitted into their respective departments.

This is a precaution designed to check any tendency of students to jump a grade when they have failed in their previous year's work. In this way the public schools can be systematically graded and brought up to the highest standard of efficiency. The grades have done a splendid year's work and the present indicates that they will be able to make up all back work by the 25th of May. Teachers and students are worthy of praise for the way they have surmounted all difficulties.

The eighth grade will have a final examination May 19th and 20th, and the High School examinations begin May 23rd.
