

J. M. KEENE

BADLY INJURED.

A letter was received by T. A. Lyons the first of the week giving details in regard to Mr. J. M. Keene's injuries, of which we spoke last week. Mr. Keene was kicked by a horse and his skull badly fractured. He was alone in the yard at the time and crawled fully 200 feet on his hands and knees to the house.

In answer to a telegram sent by inquiring friends from here, an answer was received this morning, stating the patient was getting along nicely and it was thought would pull thru all right.
