
The Passing of Tommy See

"Tommie See is dead." This is the word that came flashing over the wires last Monday morning and the sad news flew over this city as on the wings of wind. And wherever it touched it left a gloom of sorrow, for during this young man's sojourn here as operator of the G. N. depot some two years ago he made many friends. Since leaving this city he has been filling a position in the general dispatcher's office at Breckenridge and was holding that position up to about two weeks ago, when he was taken with typhoid fever and to which disease he finally succumbed at a hospital at Breckenridge early last Monday morning. He was a young man of excellent habits and fine moral character. He is survived by his father, sister and one younger brother, who reside near Bathgate this state. His mother passed away about one year ago.
