

LOHN.

Iver, the 11 year old son of Mr. and Mrs. Thorsten Stone, of Hannaford, was kicked in the head by a horse last Friday and as a result has a severe depression of the skull. He was unconscious from the time he was kicked until Tuesday when he was taken to Dr. Platou's hospital at Valley City. Doctors Bergstrom, of Cooperstown and Leslie, of Hannaford, attended to the boy at the time, and Dr. Westley was called into the case Monday night. Trepaning of the skull was necessary and he ordered the boy taken to Valley City for proper treatment and operation. The case is a serious one.
