

wants, unless you want good seeding weather.

Mrs. C. P. Schmidt and babe have returned, and freight and passenger rates have gone down.

Mrs. Unhru National work in W. C. T. U. spoke here Sunday to a crowded school house. The lady is a fluent, earnest talker, who has her subject well in hand, knows what she wants to say, and says it well. Her lectures of the evils of the rum traffic were not overdrawn, and the warning she gave sounded as to the work the resubmissionists are doing is well worth heeding. Our only regret was that those to whom her talk was aimed, were not present. In all probability a local W. C. T. U. will be organized.

Mrs. S. H. Berg and children have returned from their visit to Wisconsin and Soren is happy.

Mrs. Markwood and children took Saturdays train for Jessie, and for the present will reside with her parents. Fred followed Monday.

Rumors are that a first class bank and dry goods store will soon be stated here. A good thing, push it along.

A Mr. Sproul of New York, who certainly has his nerve with him, is going to publish an edition De luxe of Dickens to cost \$130000.00 per set. Think we will have to write and ask if it will be sold on the installment plan, and if terms will be \$1 down, and one dollar a month.

Andrew Stradness is Practicing the Delsart system of walking. His gait is certainly very expressive, and express the uncomfortableness of a Job's comforts.

We have sold three Delaval cream separators this spring to representative farmers. With butter at the present price and future prospects, hadn't you better get in the game? Remember that while every Co. claims 1st. prizes, that the Delaval people can show 1st. medal for every worlds fair held in past 12 years.

When you see Fred Butler dressed up and ready to take the train, you can pin your faith on its being Saturday, and that he is on his way to see his brother? at Rogers.

Earnest Hayward extends moving to Minneapolis in the near future.

Marion Spicer was visiting her little friends last week.

Jake Prydz was casting a shadow on our streets Sunday. His smile is as general as ever.

Fatal Injuries.

Brakeman Thomas Doyle's Foot Crushed—Died Before Reaching Hospital.

Brakeman Thos. F. Doyle's right foot was run over by a car and badly crushed. While raising the coupling bar the accident happened at Bowdon Wednesday morning. The man was brought here and that night was taken to Brainerd but he died before reaching there. Death is supposed to have been due to a weak heart as he had the services of physicians from the time of the accident.

Mr. Doyle is a nephew of M. P. Morris of Jamestown and a member of the Brotherhood of Railroad Trainmen. The remains will be taken to Wilton, Wis., where his mother lives. The deceased was a young man, who made his home at Jamestown with his uncle and was well spoken of. His death is greatly regretted.—Morning Call.

Mr. Doyle was also a resident

of Coopers town. for some time before he went to work on the road, and has a large number of friends here whom regret to hear of his death, and the sad way it was brought on.

Board of Health Notice.

The attention of the citizens of this county is directed to the following rules and regulations of the Griggs county Board of Health:

1. All persons in Griggs county are directed to remove immediately from their premises any manure, refuse, offal, decomposing animal or vegetable matter, or any substance now, or likely to become a cause of sickness.

2. All persons having on their premises cesspools and privies, are directed to disinfect the same, and have them in sanitary condition.

3. All persons having wells or using water from wells for domestic purposes are hereby directed to clean and ventilate them.

Order No. 1. It is hereby directed that it is necessary for the preservation of the public health and the safety of the inhabitants of the country, that all manure, refuse, offal, decomposing animal or vegetable matter, now or to become a cause of sickness ordered to be removed immediately, and the same deposited not nearer than one-half mile from any dwelling house or one-quarter of a mile from any public highway.

This ordinance applies to slaughter houses.

Order No. 2. Any person who deposits any manure, refuse, offal, decomposing animal or vegetable matter or any substance now, or likely to become a cause of sickness, on section Griggs Co. will be presented according to law. Any person violation any of the above orders are warned that they will be prosecuted under Sec. 258, Revised Codes, which read as follows:

Every person who shall violate any published order or regulation made by any Board of Health shall be guilty of a misdemeanor and punished by a fine not exceeding one hundred dollars or by imprisonment in the county jail not exceeding 30 days or both. Complaints will be received of existing nuisances at any time during the year, and proper consideration given them by the board and their removal insured. By order of Board:

C. L. BRIMI, M. D.,
Supt.

Tree Planting.

Setting out trees is much more than digging a hole in the ground and putting a tree in it. We have never taken any scientific or special training in this line, but trees we set out generally grow now; years ago they did not. One of the first things we learned was that a tree, however small or large, must have more roots than top or trouble would result. If the tree with more top than roots did not die, it came so near it that only meagre growth and an unsightly top was the result. It takes nerve to cut the top of a newly set tree when the only object in putting out the tree is to have the top there; but a more beautiful top and a surer one is sure to be the result. We have tried both ways many times, and the result is always the same—a well shaped, thrifty, beautiful top on the tree cut off clean, or nearly so, and a scraggly thin top or a dead tree where the top is all left on. The next thing is
