

HAND CAUGHT IN A SAW.

Frank Bissel had the misfortune to get his left hand caught in the wood saw out at W. U. White's place, last Friday, and it was feared at first that he would lose two fingers but with the aid of the needle and a few splints Dr. Johnston soon had the injured member repaired and Frank is now carrying his hand in a sling. It was a lucky thing for Frank that he did not lose his fingers or perhaps a hand.
