

New Brick Block

The work of hauling rock for the foundation of Hope's new brick block to be erected by B. Woodward has begun. The rock are to be on the ground and the excavating completed so that work on the building can be begun April 1 next. The new structure will be next to the drug store of Wamberg & Jacobson on the east and is to be a 24 x 70 two story brick with basement and will be steam heated throughout.

The first floor is to be used for a clothing store and the upstairs will be used for lodge rooms. The basement will also be fitted up for use.

Work will commence the first of April and it is expected to have the building completed for occupancy by Aug., 1.

The estimated cost of the building is about six thousand dollars and its erection will add very materially to the appearance of the business street of the town.
