## BROADLAWN.

While the family of Ed Patton were at supper, during the severe wind storm on Friday' the 26, the room suddenly became dark and a small sized cyclone whirled between the house and barn, upsetting a hay rack and wagon and carried the rack about one hundred and fifty feet, breaking it into splinters. It then turned a large four horse wagon and grain tank compleatly over and tore the big barndoor from its hinges and carried it about two hundred yds. breaking it into match wood, part of the pieces were found on the premices and Ed is still looking for the rest.
