

SCHOOL NOTES

Our teachers' meetings hereafter will be held on Saturday afternoon. This is a departure from our former custom and is done that our country teachers may meet in session with us. We can reach the rural schools to a better advantage in this way and give those in charge an incentive and aspiration to higher endeavor. The action is compulsory on the part of the rural teachers and we trust they will heartily cooperate with us and thereby make our meetings a success.

The monthly standing for the past month are based entirely upon daily recitations. Students recite daily and are given whatever their recitations merit and should a student fail to respond. Whenever called upon to recite whether he is unprepared or absent he is given a zero until such condition is removed. This zero can be removed by the student's making up the recitation. This system of grading is in vogue in all first class higher institutions of learning and is a splendid incentive to students to attend school regularly and respond promptly.
