

NOTES

The Misses Jefferson and Kress visited the High School Department Friday afternoon.

Our teachers' meeting failed to materialize Saturday owing to the inclemency of the weather.

The program in Rhetoricals was exceedingly fine Friday and this section has set a high standard of excellence.

The present status of our public schools is familiar to all. The plague of fever has delayed the the work in the grades to such an extent that it will require a strenuous effort to retrieve the time and cover the work. Therefore, we urge parents to send their children REGULAR regularly as no child can afford to miss a single day. At the beginning of the year, the grades were re-classified and a high standard of scholarship for promotion adopted and will be stringently enforced.

Those who received honorary standings in the High School department for the fifth month are as follows:-
