

School Notes.

Final examinations for the seventh and eighth grades occur, March 16th and 17th. The seventh grade must pass reading, writing, spelling and geography before passing into the eighth grade. The eighth grade must pass either at the March or May examination, history, arithmetic, physiology, civics and English grammar before passing into the High School department.

The eighth grade is a nice large class and will make a valuable addition to our high school department.

The Caesar class is now reading the I Book, having completed the II, III and IV Books and will now take up Bennett's Latin composition for the next three months.

The Geometry class is now working "originals" and pronounce it fair recreation.

The books for the English classes have come, which will greatly relieve the apparent strain.

The grade books for the sixth month have been issued and as usual some dissatisfaction prevails. The report is designed to give the parents a just and accurate estimate of the student's class work for 20 days. When the standings are low and unsatisfactory to the parent, it is the parent's duty to inquire into causes and conditions which bring about such standings. Often times they can be assigned to lack of application concentration and absence. No student can miss one recitation without its fluctuating his standing.

Those having perfect spelling lessons for the week ending Feb. 24 are as follows:

PRIMARY DEPARTMENT

Doris Tillotson,
Percy Olson,
Jamie Iseminger,
Grace Lunding,
Willie Bowen,
• Zelma Moores,
Hazel Clutter,
