

New Catholic Church

OF THE CITY DEDICATED
LAST SUNDAY MORNING

BISHOP SHANLEY WAS HERE AND CONDUCTED THE DEDICATORY CEREMONY IN AN IMPRESSIVE MANNER.—A BEAUTIFUL EDIFICE.

The beautiful little Catholic church in this city was solemnly dedicated last Sunday morning at 10:30. Bishop Shanley, assisted by Rev. Father Quillinan, performed the impressive holy services in the accustomed manner. Not until after the church had been blessed was the large assembly that had gathered to witness the ceremonies allowed to enter the edifice.

Bishop Shanley's address was inspiring and uplifting. He expressed his delight at seeing such a beautiful sanctuary in which his people at Hope and vicinity are to worship.

A double choir from the church at Casselton was present and furnished the music for the entire service. Mrs. Lason, of Casselton, singing a beautiful solo.

The church is certainly a fine edifice and would do credit to most any city. The interior finishings and fixtures are of oak and the walls and ceiling are a fine production of the artist's art. The altar is a most beautiful piece of work, and together with the scroll just above the arch bearing the inscription "Sanctus, Sanctus, Sanctus" makes the very pleasing and artistic effect. The building, together with the lots, as it stands, cost \$5,500.00, of which amount there is but \$1,500.00 yet to be paid.

Rev. Father Quillinan will have charge of the parishes at Casselton, Page and Hope, holding services at Casselton the first and third Sundays of each month, the second Sunday at Hope and the fourth at Page.

The Catholic society and the public in general may well feel proud that we have this splendid church edifice in our beautiful little city.

The Bishop gave a very interesting lecture on "Temperance" to a packed house at the opera house Sunday evening. The Bishop is an interesting lecturer and on the above subject he is certainly at home.

Bishop Shanley and Father Quillinan went from here to Aneta where they dedicated a new church at that place Monday afternoon.
