

Chester C. Piatt and Wm. Ackerman, an electrician, have applied for a franchise to put in an electric light plant at Cooperstown. A meeting of citizens was held Monday night and the proposed franchise was read and discussed, after which it was voted to recommend the town board to grant same. Work on the new plant will be started within 30 days. The COURIER is of the opinion that the gentlemen named will give the town an up-to-date plant and good service.
