

Flax straw has been rolling in-  
to the tow mill at the rate of 200  
per day which means about four  
hundred dollars of spending  
money for the farmers being dis-  
tributed by the company during  
the past two or three weeks.  
This is all clear velvet to the  
farmer who used to burn up this  
straw before we had the flax  
mill.
