

Cooperstown Courier:—Messrs. Stewart & Pepper have turned over The Hope Pioneer to their successor, C. L. Allen, and the last issue of The Pioneer under their management contained two cuts that were supposed to represent the outgoing editors. We must say that if they had not told us who they did represent we would never have guessed it. The Courier is sorry to see Messrs. Stewart & Pepper, retire from the management of The Pioneer, as they have given the people of Hope and Steele county a spicy paper. Here's hoping that their future efforts in whatever they undertake will be successful, at the same time we extend the right hand of fellowship to the new management.
