

SOME CROP YIELDS!

F. N. Gilmore gets 15 bushels, which is not bad.

The McCarty boys are satisfied with $17\frac{1}{2}$ all one northern.

We learn that S. D. Curry's flax went $13\frac{1}{2}$ bushels. Good for Seth.

They say that Hank Farris has the banner crop in this section.

Over east the Fuller boys were rewarded with 17 bushels.

Dan Nelson and Ed Carpenter were rewarded with 16 bushels.

Charley and Jack Rowe have the best yield we have heard of—20 bushels.

Generally speaking, those who have threshed received considerable more than expected.

There is no disputing the fact, most all the wheat in this locality is extra good quality.

Those Willow Lake fellows are laughing all over. It is said that 23 and 25 bushels is small for them.

A. E. Ploof is one of the lucky ones. Part of his crop threshed out 23 bushels—and he isn't saying a word.

H. I. Standley spent several days at the farm last week looking after threshing. His wheat averaged 16 bushels.

Mont Washburn and Tom Sussex are rejoicing over their yields, both received several bushels more than they expected.

Elmer Lambert, over in Riverside, is rejoicing over a 20 bushel yield of one northern wheat. Elmer is a good farmer.

Wheat on The Pioneer farm yielded $17\frac{1}{2}$ bushels per acre and graded one northern with a pound off. Not so bad. But the flax, don't mention it.
