

Mont Washburn met with a serious and painful accident yesterday which came near costing his life. It happened about 10 o'clock at the farm, while breaking a colt. The team broke away and got him down, then passed over him wagon and all. The front axle caught his head and doubled him up, almost breaking his back. The ligaments are badly torn and he is otherwise bruised. Dr. Philip is attending and has hopes of his recovery, but it will take some time. Mr. Washburn's numerous friends are sorry to learn of his misfortune and hope for his speedy recovery.
