

Obituary.

Sadness now darkens the home of Mr. and Mrs. W. E. Elliott near Sherbrooke, where a fortnight ago all was happiness and sunshine.

Little Edna, age 3 years, 1 month and 2 days, is gone—gone forever.

She was taken ill on Monday of last week, but was thought to be only some common child's complaint, but continued to grow worse. Dr. Stephenson was called and administered everything in his power to relieve the little sufferer, who soon became delirious and remained unconscious until death, at 9 o'clock Thursday evening, from the effects of blood poison.

On Monday, the day she was taken, she fell from the buggy bruising her left limb somewhat, which soon became badly swollen, and as a last resort, Dr. Stephenson operated upon it on Thursday.

The funeral occurred Friday afternoon at the M. E. church, Rev. Whitford officiating.

The entire community extend deep sympathy to the bereaved family in their sorrow.
