

Memorial Day was fittingly observed here last Saturday. Bunting and flags decorated every business house in town and nearly all of the residences and bore evidence of the respect for the day and love of country that fills the breast of every true American citizen. The program for the day was carried out as given in our last issue. In the afternoon the Finley ball players crossed bats with our boys on the local diamond. A very good game was played but the visitors went down to defeat, the score being 7 to 4.
