

School Notes.

President Merrifield, state high school examiner, has just sent out results of the January examination and Hope State High School made an excellent record by receiving certificates in Botany, Zoology and Physiography. Every member in all three classes received his certificate and has been given credit on the High School record for same.

The report by classes is as follows:

Botany—Ella Nelson, Eunice Jacobson.

Zoology—Eunice Jacobson, Ella Nelson.

Physiography—Edna Gray, Lizzie Cyrus, Maude Laramore, Earl Hughes, Bessie Stiles.

The Caesar Class has taken a thoro review in Latin Grammar and Prose Composition since last September and was allowed to try the examination, by way of an experiment and test.

The class is not supposed to pass the subject until the May examination. Four manuscripts from this test were reported and four certificates were issued. They are as follows:

Jessie White, Florence Link, Emma Slingsby and Jno Baldwin.

The work of this class has been excellent and of an exceptionally high order. The class, as a whole, is thoroly prepared to read Cicero and Virgil in a scholarly manner.

The supplementary readers for the Second grade are here and their use was begun last week. This installment completes the series for all grades. They are Lights to Literature and are, without a doubt, the best readers in the field today, as they bring the children in direct contact with the masterpieces in English literature, life and personality of the author.

Much of the success of the entire year depends upon the next few weeks. The student who maintains his standard of scholarship and attendance during the springtime is assured of success in the final examinations. Failures may be attributed to lack of application oftener than inferior instruction. Therefore we urge students not to relinquish their tenacity of purpose and become neglectful of duty when the crocuses peep through their grassy covers and announce the approach of spring.

The following students in the First grade had perfect spelling lessons for the week ending April 14: Doris Tillotson, Percy Olson, Grace Lunding, Zelma Moores, Willie Bowen, Frances Lockwood.

Second Grade—Ralph Klovstad, Paul Roney, Lyle Bowen, Alice Joslyn, Grace Harness, Elsie Lockwood, Annie Meader, Zoe Baker, Della Dorrance, Sibyl Wamberg, Lloyd Pepper, Jere Miller.

Fourth Grade—Mevene Couron, Mayme Milligan, Frank Sussex.

Mrs. J. A. Johnson, of Amenia, and Mrs. Kraabel visited the Second grade last Wednesday afternoon.
