

# Umstead Injured

While working with some of the elevator machinery at the Colgate Farmers Elevator Tuesday Ray Umstead became enangled with a belt and before the machinery was stopped one of his legs was broken and badly crushed and had the belt not been stopped when it was he would almost surely have been killed. Dr. Phillip was called to care for him and altho the injured man is in very bad shape the doctor has hope of saving the limb.

Umstead was a member of the Hope baseball team last year.
