

Bad Wreck.

Last evening G. A. Warner had the misfortune to badly wreck his automobile while out riding with a party on the Sherbrooke road several miles north of town. The accident occurred while passing a four-horse team which was going in the same direction. The road was graded up several feet and in going by the machine ran over the edge of a culvert which was hidden in the weeds breaking the steering gear. Altho the engines were stopped the momentum carried the machine forward and toward the team causing the horses to lunge into the ditch which turned over the wagon and tank. In the melee the driver lost control of the team which ran away. The auto was badly damaged but fortunately the occupants were uninjured. Mr. and Mrs. Mann and Mrs. E. D. Washburn were with Mr. Warner when the accident occurred.
