

# School Notes.

By Prof. Thos. G. Pierson

---

The public school of Hope will open Monday September the second. It is hoped that all the pupils will be present the first day. It is very important that all the little children who expect to enter school for the first time be present at the beginning of the school year. Children often have to remain two years in one grade because they enter a month late. Another very important factor in the progress of children in school is, that they be present every day. If children are absent they fall behind in their work and become discouraged. A third factor in the progress of children in their work is, that they be punctual, children who enter school at the beginning of the year, who are present every day, who are punctual to the second will be amply reward by the progress they will make in their studies. The policy of the school is to help every child. The co-operation of parents and patrons will be greatly appreciated by the teachers.
