

The beautiful weather of the past two weeks has been a great blessing to the people of North Dakota and the railroad companies. The blockades have been lifted and fuel and merchandise trains have been running into the towns of the state relieving the shortage that have existed. This branch has been in good shape the past few days by the arrival of coal and merchandise and the fuel scare of the year 1906 and '07 is a thing of the past. It is our first experience in this line and we hope it will be the last.
