

A. D. Davis was called to the home of Ernest Johnson south of New England last Saturday to attend to the funeral of the seven year old son of Mr. and Mrs. Johnson, who died January 10, after a short illness with diptheria. Dr. A. H. Baldwin accompanied Mr. Davis on the trip and attended Mrs. Johnson and children, who have been seriously ill with diptheria. The doctor reports all as getting on very favorably. Mr. Davis and Dr. Baldwin made the return trip Sunday and report the snow very deep and travelling difficult.—Dickinson Recorder.

Mr. Johnson and family are certainly having hard luck and have the sympathy of their many friends in Cooperstown.
